

7:50 P.M.

9 April 44

Dear Mom & Dad.

Just time on my hands so figured I would write, even if a short letter. Have wrote a letter to June. The radio is playing so if things don't match, just blame it on the radio.

Today Harley and I went up to see his buddy who is in the navy. Had quite a time there, talking, reading, playing basketball etc. He also ate, chow there this evening. Good meal too. Then we started back. It began to rain and I got drenched because I didn't take my raincoat along with me. He finally got back and Harley went to the show. Don't see going to a show, let alone in the rain. Charley McCarthy just came on the radio. It should be a fairly good program compared to the other.

Quite an Easter Sunday here. It was raining and dreary all day long. Hope you had a much better time. Say there is something that both of you can do for me. Next Sunday you and Mom both go and get a big matted milk and hamburger for me. You will do it, won't you?

So your line is going pretty slow? Tell you are being pushed to much from that angle then. Suppose you would just as soon finish it as to have it hanging around ~~un~~

#

unfinished.

This morning I took it easy again and read some stories. Time sure flies when you do something like that. Time really flies out here anyway. Does it pass as quickly for you?

The Bergan program is really good this evening. At the present time they are in a barber shop. It is a riot.

Say hello to everyone and tell them I am just fine. Am thinking of about be long before school is out. But you are having pretty good weather back there. Well this is all for now. Am thinking of you all the time

Love  
Bill.
