

July 14-1944

UNITED STATES MARINE CORPS

Dear Luella,

Received your letters of the 2nd and 14th of June yesterday. They were really very nice.

By now Gus should have about 55 missions in, shouldn't he? I would really like to run into him. He would really have a great time.

You are really having some changeable weather aren't you? Suppose you are getting tired of it too. I heard that the doctor Greve here was sick. By now he should be well though.

Quinten is just fine. Never looked or felt any better when he was home.

I also got a letter from Sy in the bunch I received. He seems fine and in very good spirits.

Got a large picture of June. It is very nice. It was taken out in front of Sargent Product Lab. there in Madison. Guess this is about all for now. Am feeling just fine and am in good health. Hope you are too.

Bye and Good Luck
Bill
